Band in Oz

DESCRIBED as "like a local TV drama – like *The Secret Life Of Us* – but way sexier" comes *The Band*, a brand-new erotic movie made right here in Australia. The story's based around Candy, a chick who decides to get revenge on her singer ex-boyfriend by taking his place in a rock group and

catapulting them to stardom. Naturally, there's plenty of sexy time along the way. "This film is based on some of the stories I heard

while working in the Melbourne rock scene," revealed director Anna Brownfield. *The Band's* due for release this month – head over to www.hungryfilms.com for updates.
